Davison, W. [=Davison, William Ruxton]

Davison, William [=Davison, William Ruxton]

Davison, William Ruxton (?–1893; England)
Ornithologist, and collector. Born in Burma [=Myanmar], and grew up in Ooty [=Udhagamandalam], south-western India. Assisted A. O. Hume and collected for him. First Director of the Raffles Museum, Singapore (1887–1893). May have died due to an overdose of opium. 'Davison was one of the best collectors that the world has ever seen' (Sharpe 1906: 337).

Delacour, J. [=Delacour, Jean Baptiste Théodore]

Delacour, Jean [=Delacour, Jean Baptiste Théodore]

Delacour, Jean Baptiste Théodore (1890–1985; USA) Ornithologist of French origin (born in Paris). Renowned for not only discovering but also rearing some of the rarest birds in the world. In 1920 founded the leading ornithological journal in France, *L'Oiseau*, and was editor until WWII. In 1938 served as Secretary General of the Ninth International Ornithological Congress, which met in Rouen. Created the zoological gardens at Clères, donating them to Museum National d'Histoire Naturelle in 1967. His private zoo was destroyed in WWI and was rebuilt by him, only to be destroyed once again in WWII! He escaped to America, only to return in 1946 and rebuild it into one of the finest private zoos in the world! Went on expeditions to Indochina, particularly Vietnam. The priceless collections he brought back, of 30,000 birds and 8,000 mammals, were eventually divided among Paris, London, and New York. He was a founder and for many years President of the International Council for Bird Preservation (ICBP—now BirdLife International). He was one of the best known, most honoured, and widely travelled ornithologists of his time.

Dementiev, Georgiy Petrovich [=Dement'ev, Georgiy Petrovich]

Dement'ev, G. P. [=Dement'ev, Georgiy Petrovich]

Dement'ev, Georgiy Petrovich (1898–1969; Russia) Ornithologist, and academician. Became Head of Ornithology Department at the Zoological Museum of Moscow State University in 1932 and was awarded a Hon. Ph.D. in 1936. Was in the forefront of conservation in Soviet Russia, taking an active administrative part in the All-Russian Society of Nature Conservation and using this organisation and its growing membership to good effect when opposed by the Council of Ministers of the Russian Federation in 1953. Was an active member of extraordinarily courageous scientists' teams that helped protect nature reserves during 1951–1961—a dangerous calling, as it was frowned upon by Soviet leaders. His intense conservation activity as Chairman of the Commission on Nature Conservation was disliked by Khrushchev so much that he had it closed in 1963. Dement'ev's contribution in the conservation of birds of prey is immense. He was a prolific writer of both scientific papers (400+) and books and popular articles that unhesitatingly wrangled with conservation issues. He spoke seven languages and was able to read another five! His was the hand that reached over the Iron Curtain to establish contacts with western ornithologists. His tombstone is engraved with a Gyrfalcon.

Dewar, D. [=Dewar, Douglas]

Dewar, Douglas (1875–1957; England)
Civil servant in India, barrister, and ornithologist. A Cambridge science graduate, he later studied law; spent many years in the civil service in India. Became an authoritative ornithologist, writing over 22 books on Indian birds and Indian history. Founder of the Evolution Protest Movement in London in 1932 and long-time leader of this organization. Dewar wrote numerous papers and books expounding the scientific basis of creation. Was elected President and Vice-President of the Victoria Institute and participated in a number of both written and oral creation / evolution debates with leading evolutionists including H. S. Shelton, J. B. S. Haldane and Joseph McCabe. Fellow of the Zoological Society.

Dick, John Henry (1919–1995; USA)
American naturalist and wildlife artist, specializing in birds. Joined the US Airforce during World War II. Illustrated several books, including *A pictorial guide to the birds of the Indian Subcontinent* (1983; Pittie 2010: 65–66). His mother had survived the RMS Titanic's sinking in 1912. Tragically, he lost his eyesight towards the end of his life. Seven volumes of his journals are held by The South Carolina Historical Society. He bequeathed his 900 acres estate to the College of Charleston.

Dickinson, E. C., 2011. Anderson, J. ("1878" = 1879). Anatomical and Zoological Researches: comprising an account of the zoological results of the two expeditions to Western Yunnan in 1868 and 1875. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 69.

Dickinson, E. C., 2011. Blyth, E. ("1849" = 1852). Catalogue of the Birds in the Museum [of the] Asiatic Society. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 74–75.

Dickinson, E. C., 2011. Bonaparte, C.L. (1850). Conspectus Generum Avium. Vol. 1. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 75–76.

Dickinson, E. C., 2011. Bonaparte. C.L. ("1857" = 1855–57). Conspectus Generum Avium. Vol. 2. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 76–77.

Dickinson, E. C., 2011. Bonaparte, C.L. ("1857" = 1857–58). Iconographie des pigeons non-figurées par Mme. Knip (Mlle. Pauline Decourcelles) dans les deux volumes de MM. Temminck et Florent Prévost. Ouvrage servant d'illustration a son histoire naturelle des pigeons. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 77–78.

Dickinson, E. C., 2011. Bonnaterre, L'Abbé & L.P. Vieillot (1790–1823). Tableau encyclopédique et méthodique des trois regnes de la nature. 2eme edition. Ornithologie. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 78.

Dickinson, E. C., 2011. Cuvier, G.L.C.F.D. ("1817" = 1816). Le regne animal distribue d'apres son organisation, pour servir de base a l'histoire naturelle des animaux et d'introduction a l'anatomie comparée. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 85.

Dickinson, E. C., 2011. Cuvier, G.L.C.F.D. (1829–1830). Le regne animal distribue d'apres son organisation, pour servir de base a l'histoire naturelle des animaux et d'introduction a l'anatomie comparée. Nouvelle edition. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 85–86.

Dickinson, E. C., 2011. Cuvier, G.L.C.F.D. (1836–1849). Le regne animal distribue d'apres son organisation, pour servir de base a l'histoire naturelle des animaux et

d'introduction a l'anatomie comparée. 3EME (or "Disciples") edition. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 86.

Dickinson, E. C., 2011. Gmelin, J.F. (1788–1789). Systema Naturae, per regna tria Naturae: secundum Classes, Ordines, Genera, Species, cum Characteribus, Differentiis, Synonymis, Locis. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 93–94.

Dickinson, E. C., 2011. Gray, J. E. (1830–1835). Illustrations of Indian Zoology; chiefly selected from the collection of Major-General Hardwicke, F.R.S. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 105.

Dickinson, E. C., 2011. Hartert, E. (1903–1923). Die Vogel der palaarktischen Fauna. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 106–107.

Dickinson, E. C., 2011. Hartert, E. & F. Steinbacher (1932–1938). Die Vogel der palaarktischen Fauna. Erganzungsband. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 107–108.

Dickinson, E. C., 2011. Horsfield, T. & F. Moore (1854). A Catalogue of the birds of the Museum of the Hon. East-India Company. I. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 109.

Dickinson, E. C., 2011. Horsfield, T. & F. Moore ("1856–58" = 1858). A Catalogue of the birds of the Museum of the Hon. East-India Company. II. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 109.

Dickinson, E. C., 2011. Jardine, W. (1843). The natural history of the Nectariniadae, or sunbirds. Sunbirds in Naturalists' Library. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 110.

Dickinson, E. C., 2011. Jardine, W. & P. J. Selby [1837–1843]. Illustrations of Ornithology. New Series. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 111–112.

Dickinson, E. C., 2011. Jerdon, T. C. ("1839" = 1841?). Catalogue of the birds of the Peninsular of India, arranged according to the modern system of classification; with brief notes on their habits and geographical distribution, and description of new, doubtful and imperfectly described species. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 112.

Dickinson, E. C., 2011. Jerdon, T. C. ("1847" = 1843–1847). Illustrations of Indian Ornithology containing fifty figures of new, unfigured and interesting species of birds, chiefly from the south of India. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 112–113.

Dickinson, E. C., 2011. Knip, Mme. P. & F. Prevost (1838–1843?). In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. -.

Dickinson, E. C., 2011. Latham, J. (1801). Supplementum Indicis ornithologici sive Systematis ornithologiae. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 115–116.

Dickinson, E. C., 2011. Legge, W. V. (1878–1880). A history of the birds of Ceylon. 2 vols. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 117.

Dickinson, E. C., 2011. Lesson, R. P. (1830–1831). Traite d'Ornithologie ou Tableau Methodique des ordres, sous-ordres, familles, tribus, genres, sous-genres et races d'oiseaux. 2 vols. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 119.

Dickinson, E. C., 2011. Malherbe, A. ("1861"–1862 = 1859–1862). Monographie des picides, ou Histoire naturelle des picides, picumnines, yuncines ou torcols. 4 vols. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 124–125.

Dickinson, E. C., 2011. Royle, J. F. (1839 [= 1833–1840]). Illustrations of the botany and other branches of natural history of the Himalayan mountains, and of the flora of Cashmere. 2 vols. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 138–139.

Dickinson, E. C., 2011. Severtsov, N. A. (1873). Vertikal'noe i gorizontal'noe raspredelenie

Turkestanskikh zhivornykh. (Vertical and horizontal distribution of Turkestan animals). In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 144–145.

Dickinson, E. C., 2011. Shaw, G. (1789–1813). Vivarium naturae or the naturalist's miscellany. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 146.

Dickinson, E. C., 2011. Shelley, G. E. (1876–1880). A monograph of the Nectariniidae or family of sun-birds. In: Dickinson, E. C., Overstreet, L. K., Dowsett, R. J., & Bruce, M. D., (eds.). *Priority! The dating of scientific names in ornithology: a directory to the literature and its reviewers*. Northampton, UK: Aves Press Limited. Pp. 147–148.

Edwards, George (1694–1773; England)
Draughtsman, naturalist and ornithologist. He travelled the continent between 1718 and 1720, and on returning home began to make drawings of animals, which he sold. By December 1733 he was appointed, on Sir Hans Sloane's recommendation, librarian to the Royal College of Physicians in London.

Bibliography
Edwards, G., 1743. *A natural history of birds, most of which have not been figur'd or describ'd, and others very little known, from obscure or too brief descriptions without figures, or from figures very ill design'd. Containing the figures of sixty birds and two quadrupedes, engrav'd on fifty-two copper plates, after curious original drawings from life, and exactly colour'd. With full and accurate descriptions.* 1st ed. London: Published by the author. Vol. I (Part 1), of 2 vols. Pp. i–xxiv, 1–52.
Edwards, G., 1743. *A natural history of birds, most of which have not been figur'd or describ'd, and others very little known, from obscure or too brief descriptions without figures, or from figures very ill design'd. Containing the figures of sixty birds and two quadrupedes, engrav'd on fifty-two copper plates, after curious original drawings from life, and exactly colour'd. With full and accurate descriptions.* 2nd ed. London: Published by the author. Vol. I of 4 vols. Pp. i–xix, 1–52.
Edwards, G., 1747. *A natural history of birds, most of which have not been figured or described, and others very little known, from obscure or too brief descriptions without figures, or from figures very ill designed: Containing the figures of sixty-one birds and two quadrupedes, engrav'd on fifty-three copper plates, afrer (sic) curious original drawings from life, and exactly colour'd. With full and accurate descriptions. To which is added an appendix, by way of illustration.* 1st ed. London: Published by the author. Vol. I (Part 2), of 2 vols. Pp. i–viii, 53–128.
Edwards, G., 1747. *A natural history of birds, most of which have not been figured or described, and others very little known, from obscure or too brief descriptions without figures, or from figures very ill designed: Containing the figures of sixty-one birds and two quadrupedes, engrav'd on fifty-three copper plates, afrer (sic) curious drawings from life, and exactly colour'd. With full and accurate descriptions. To which is added, an appendix, by way of illustration.* 2nd ed. London: Published by the author. Vol. II of 4 vols. Pp. i–viii, 53–128.
Edwards, G., 1750. *A natural history of birds. The most of which have not hitherto been figured or described, and the rest, by reason of obscure, or too brief descriptions, without figures, or of figures very ill design'd, are hitherto but little known. This part exhibits the representations of fifty-nine birds, engraven on fifty-two copper plates, and coloured in their natural and proper colours, after curious original paintings, design'd from the life: With a full and accurate description of each bird.* 1st ed. London: Published by the author. Vol. II (Part 3), of 2 vols. Pp. 106–157 [sic, 129–157, A.P.].
Edwards, G., 1750. *A natural history of birds, the most of which have not hitherto been figured or described, and the rest, by reason of obscure, or too brief descriptions, without figures, or of figures very ill*

design'd, are hitherto but little known. This part exhibits the representatives of fifty-nine birds engraven on fifty-two copper plates, and coloured in their natural and proper colours, after curious original paintings, designed from the life: With full and accurate description of each bird. 2nd ed. London: Published by the author. Vol. III of 4 vols. Pp. 106–157.

Edwards, G., 1751. *A natural history of uncommon birds, and of some other rare and undescribed animals, quadrupedes, reptiles, fishes, insects, &c. exhibited in two hundred and ten copper-plates, from designs copied immediately from nature, and curiously coloured after life. With a full and accurate description of each figure. To which is added, a brief and general idea of drawing and painting in water-colours; with instructions for etching on copper with aqua fortis; Likewise some thoughts on the passage of birds; and additions to many of the subjects described in this work.* 1st ed. London: Published by the author. of 4 vols. Pp. (1743-1751).

Edwards, G., 1751. *Histoire naturelle d'oiseaux peu comuns: et d'autres Animaux rares & qui n'ont pas été Decrits, Consistant en Quadrupedes, Reptiles, Poissons, Insects, &c. Représentés sur Cent Dix Planches en Taille douce, Avec une ample & exacte Description de chaque Figure. A laquelle on a ajouté Quelques Reflexions sur les Oiseaux de Passage; & un Supplément à plusieurs des Sujets qui sont décrits dans cet Ouvrage.* London: Published by the author. Vol. I of 4 vols. Pp. (1745-1751).

Edwards, G., 1751. *A natural history of birds, the most of which have not hitherto been figured or described, and the rest, by reason of obscure, or too brief descriptions with-out figures, or of figures very ill designed, are hitherto but little known. Containing the representations of thirty-nine birds, engraven on thirty-seven copper plates, after curious original drawings from life; Together with a full and accurate description of each. To which are added, by way of appendix, sixteen copper plates, representing the figures of many curious and undescribed animals, such as quadrupedes (both land and amphibious) [sic, ',' A.P.] serpents, fishes and insects: The whole containing fifty-three copper-plates, which is the full number given in each of the foregoing parts of this work. Every bird, beast, &c. is colour'd from the original painting, according to nature.* 1st ed. London: Published by the author. Vol. II (Part 4), of 2 vols. Pp. 158–248.

Edwards, G., 1751. *A natural history of birds, the most of which have not hitherto been figured or described, and the rest, by reason of obscure, or too brief descriptions with-out figures, or of figures very ill designed, are hitherto but little known. Containing the representations of thirty-nine birds, engraven on thirty-seven copper plates, after curious original drawings from life; Together with a full and accurate description of each. To which are added, by way of appendix, sixteen copper plates, representing the figures of many curious and undescribed animals, such as quadrupedes (both land and amphibious) [sic, ',' A.P.] serpents, fishes and insects: The whole containing fifty-three copper-plates, which is the full number given in each of the foregoing parts of this work. Every bird, beast, &c. is colour'd from the original painting, according to nature.* 2nd ed. London: Published by the author. Vol. IV of 4 vols. Pp. 158–248.

Edwards, G., 1758. *Gleanings of natural history, exhibiting figures of quadrupeds, birds, insects, plants, &c. Most of which have not, till now, been either figured or described. With descriptions of seventy different subjects, designed, engraved, and coloured after nature, on fifty copper-plate prints. [Title also in French-, "Glanures d'histoire naturelle," etc.].* 1st ed. London: Published by the author. Vol. I of 3 vols. Pp. 1–108.

Edwards, G., 1758. *Gleanings of natural history, exhibiting figures of quadrupeds, birds, insects, plants, &c. Most of which have not, till now, been either figured or described. With descriptions of seventy different subjects, designed, engraved, and coloured after nature, on fifty copper-plate prints. [Title also in French-, "Glanures d'histoire naturelle," etc.].* 2nd ed. London: Published by the author. Vol. I of 3 vols. Pp. 1–108.

Edwards, G., 1760. *Gleanings of natural history, exhibiting figures of quadrupeds, birds, insects, plants, &c. Most of which have not, till now, been either figured or described. With descriptions of seventy different subjects, designed, engraved, and coloured after nature, on fifty copper-plate prints. [Title also in French-, "Glanures d'histoire naturelle," etc.].* 1st ed. London: Published by the author. Vol. II of 3 vols. Pp. i–xxxv, 109–220.

Edwards, G., 1760. *Gleanings of natural history, exhibiting figures of quadrupeds, birds, insects, plants, &c. Most of which have not, till now, been either figured or described. Eiseley, Loren [=Eiseley, Loren Corey]

Eiseley, Loren C. [=Eiseley, Loren Corey]

Eiseley, Loren Corey (1907–1977; USA)
Anthropologist, humanist, philosopher, evocative essayist, poet, and writer. Served long, under various avatars, at the University of Pennsylvania. Was elected a member of the National Institute of Arts and Letters, and the American Academy of Arts and Sciences. Often referred to as the modern-day Thoreau. Argued that Edward Blyth was the unacknowledged influence behind Charles Darwin's theory of evolution.

Elliot, D. G. [=Elliot, Daniel Giraud]

Elliot, Daniel G. [=Elliot, Daniel Giraud]

Elliot, Daniel Giraud (1835–1915; USA)

Naturalist. Unable to take a college education due to his delicate health, Elliot travelled. Visiting London in 1859 he met P. L. Sclater and other eminent ornithologists and started collecting birds. He donated his collection to the American Museum, where it formed the base for future acquisitions. Elliot was one of the founders of the American Museum of Natural History in New York and in 1883 of the American Ornithologists' Union. Was also Curator of Zoology (1894–1906) at the Field Columbian Museum of Natural History in Chicago. Elliot used his wealth to publish a series of books of sumptuous colour plates of birds and animals. He wrote the text himself, and for the illustrations commissioned artists such as Joseph Wolf, and Joseph Smit, both of whom had worked for John Gould.

Elsen, Paul R. (1984–; USA)
PhD in Ecology and Evolutionary Biology, Princeton University, on the ecology and conservation of Himalayan birds, specifically investigating the factors limiting the elevational distributions of birds in the western Himalayas of Himachal Pradesh and Uttarakhand. He subsequently held postdoctoral positions at Princeton University, UC Berkeley, and the University of Wisconsin-Madison, where he expanded the focus of his research to include the eastern Himalayas, and to evaluate conservation issues in mountain ranges globally. Currently, Climate Adaptation Scientist, Wildlife Conservation Society, providing analytical, technical, and scientific support to various country programs.

Eyton, Thomas Campbell (1809–1880; England)
Naturalist and author. Educated at Cambridge University. On coming into possession of the family estate at Eyton, Shropshire, in 1855, he built a museum for which he assembled a collection of skins and skeletons of European birds. On his death the museum dispersed. He was a friend and contemporary of Charles Darwin, Alfred R. Wallace, Louis Agassiz, John Gould and Richard Owen. Author of several works on natural history, mostly concerning British birds. Eyton was an original member of the British Ornithologists' Union.

Finsch, O. [=Finsch, Friedrich Hermann Otto]

Finsch, Otto von [=Finsch, Friedrich Hermann Otto]

Finsch, Friedrich Hermann Otto (1839–1917; Germany) Naturalist and traveller who dabbled in politics. Apprenticed as a painter on glass, which was a family business. He became Assistant Curator at the Dutch National Museum in Leiden (1862–1864) and then Curator (1897–1904). Later he became curator of the Bremen Museum, 1864–1879. Travelled all over the world, including expeditions to Turkestan and western Siberia in 1876, the South Seas between 1879 and 1882, the Bismarck Archipelago and New Guinea in 1884. Published accounts of birds from every part of the globe, particularly East Africa and Polynesia, but is still chiefly remembered as an expert on Psittacidae. In 1884 appointed Bismarck's Imperial Commissioner to New Guinea, which led to the formation of German protectorates in the area. There is even a port in New Guinea—Finschshafen—still named after him, although the German protectorate became an Australian responsibility at the end of WWI. From 1905 he was head of the ethnographical department of the Municipal Museum in Brunswick.

Fisher, James [=Fisher, James Maxwell McConnell]

Fisher, James Maxwell McConnell (1912–1970; England)
Author, editor, broadcaster, naturalist and ornithologist. Educated at Eton and Oxford. Began studying medicine but switched over to zoology after an expedition to Spitzbergen. Made over 1,000 radio and television broadcasts on natural history subjects. He played a major role in popularising birdwatching as a pastime in the UK after WWII. As well as writing his own books, he was an editor of Collins' New Naturalist series. He held the unique distinction of being awarded the Union Medal of the British Ornithologists' Union, the Gold Medal of the Royal Society for the Protection of Birds, and the Tucker Medal of the British Trust for Ornithology.

Fitter, R. S. R. [=Fitter, Richard Sidney Richmond]

Fitter, Richard [=Fitter, Richard Sidney Richmond]

Fitter, Richard Sidney Richmond (1913–2005; England)
BSc, Economics, London School of Economics (1933). British Ornithologist and naturalist. Assistant Editor *The Countryman* (1946–1959). Served in WWII. Life-long involvement in various national and international organisations, including IUCN, BTO, RSPB, Fauna & Flora Preservation Society, ICBP (now BirdLife International), London Natural History Society, etc. Prolific and best-selling author. Awards: Order of the Golden Ark, Netherlands (1978); Peter Scott Medal, British Naturalists' Association (1998); Christopher Cadbury Medal, Royal Society for Nature Conservation. In 2008 the British Naturalists' Association instituted a Richard Fitter Memorial Medal which is awarded annually to an individual who is a dedicated active field naturalist.

Fletcher, T. B. [=Fletcher, Thomas Bainbrigge]

Fletcher, T. Bainbrigge [=Fletcher, Thomas Bainbrigge]

Fletcher, Thomas Bainbrigge (1878–1950; England) Entomologist and naval officer. A naval paymaster until 1910 when he transferred from the navy to be Imperial Entomologist to the Government of India. Bainbrigge had interests in all spheres of entomology, including the problems of economic pests in India. His prime concern, however, was the Microlepidoptera on which he concentrated after his retirement. During WWII was of considerable help to The Natural History Museum, London allowing part of its valuable insect collections and libraries to be stored at his home in the Gloucestershire countryside.

Forbes, James (1749–1819; Scotland)

Traveller. First travelled to Bombay in 1765 as a writer for the East India Company, and spent most of the years until 1784 in residence there. He filled 52,000 manuscript pages with notes on all aspects of Indian life and culture, including descriptions of wildlife and personal encounters with the people. After returning to England he married and thereafter travelled extensively on the European continent. His life in India later formed the basis of the four-volume *Oriental Memoirs*. This work remains a document of the natural history and culture of late 18th-century India valued by both Western and Indian scholars.

Forster, Johann Reinhold (1729–1798; Germany)
Naturalist and teacher. Studied theology in Halle, 1748–1751. His Philosophical Transactions of the Royal Society (1772–1773) on zoology, ornithology and ichthyology established him as one of the earliest authorities on North American zoology. Forster accompanied Captain James Cook on his second voyage around the world and in 1778 published his observations on the trip.

Gadow, Hans [=Gadow, Hans Friedrich]

Gadow, Hans Friedrich (1855–1928; Germany)
Naturalist. Educated at the universities of Berlin, Jena and Heidelberg. Studied zoology at Jena the renowned German evolutionist Ernst Haeckel, but began to make his mark only after moving to England and taking a job at the British Museum in 1880. Shortly thereafter (1884) became associated, permanently, with Cambridge University, as Curator and teacher, succeeding Osbert Salvin. Gadow's research focused on the anatomy and morphology of birds, and his publications in that area are important for the effect they had on 20th-century systematics studies on that group. He also worked on reptiles and amphibians, and at the turn of the century embarked on a series of travels in Spain and Mexico where he developed a strong interest in the geographical distribution and dispersal mechanisms of these groups.

Gee, E. P. [=Gee, Edward Pritchard]

Gee, Edward Pritchard (1904–1968; England)
Naturalist, conservationist, and tea planter. Educated at Immanuel College, Cambridge. Dedicated conservationist and incessant advocate of the cause of wildlife conservation in India both through the written and the spoken word. Was a member, since inception, of the Indian Board for Wild Life, and later became its eastern regional secretary, a post he held until his death. Member of the Survival Service Commission of the International Union for the Conservation of Nature. Discovered the Golden Langur *Presbytis geei* in Bhutan.

Godwin-Austen, H. H. [=Godwin-Austen, Henry Haversham]

Godwin-Austen, Lieutenant-Colonel Henry Haversham (1834–1923; England)

Known as H. H. Austen until 1854, when he added 'Godwin' to his surname by royal license. Surveyor, topographer, naturalist, and geologist. Royal Military College, Sandhurst (1848–1851) and commissioned to the 24th Foot. Arrived in Burma [=Myanmar] in 1853, serving in various postings in northern India. Joined the Trigonometrical Survey of India in 1853. Promoted to Lieutenant in 1856 and Captain in 1858. Joined the Survey of India in 1857. Seriously injured in Udhampur (1858). Travelled and surveyed widely, as well as collected and described birds from Assam. Specially interested in land mollusks. President, Malacological Society of London (1897–1899); President, Conchological Society of Great Britain and Ireland (1908–1909); Vice President, Zoological Society of London (1895). In 1880 he had been elected a Fellow, Royal Society (1880). Awards: Founder's Medal, Royal Geographical Society (1910).

Goodwin, Derek [=Goodwin, Richard Patrick]

Goodwin, Richard Patrick (Derek) (1920–2008; England)

Army service 1940–1946, seeing action in Egypt, Libya and Malta. Commenced in the Bird Room of the British Museum (Natural History) as a temporary attendant and progressed to Principal Scientific Officer, retiring in February 1982. Professional work largely taxonomic, personal interests included behaviour and ecology. Authority on Columbidae, Corvidae and Estrildidae. Awarded Avicultural Society Award 1954, Union Medal of BOU in 1972, William F. Hollander Merit Award Medal 1976. Elected Corresponding Fellow of American Ornithologists' Union in 1960s, and of Deutsche Ornithologen-Gesellschaft in 1970s.

Gould, John (1804–1881; England)

British taxidermist, taxonomist and ornithologist. Learned taxidermy at Windsor Castle, where his father was foreman of gardeners. In 1827 became taxidermist to the Zoological Society of London. The arrival in 1830 of a collection of exotic bird skins from the Himalayas enabled him to produce the first of many folio volumes, *A century of birds from the Himalaya Mountains* (1831−32). Gould's sketches were transferred to the lithographer's stone by his wife, the former Elizabeth Coxon, whose artistic talents were to enhance many of his works until her death in 1841. The 5-volume *Birds of Europe* (1832−37) and *Monograph of the Ramphastidae* (Toucans) (1834) were so successful that the Goulds were able to spend two years (1838−40) in Australia, where they made a large collection of birds and mammals. The collection resulted in Gould's most famous work, *The birds of Australia* (7 vols. 1840−48; supplements 1851−69), and in *Mammals of Australia* (3 vols. 1845−63). Gould was elected Fellow of the Royal Society in 1843. His lifetime work comprised 41 folio volumes, with 2,999 coloured plates. His many scientific papers, mostly devoted to descriptions of new species, established his professional reputation—'…in discriminating minute specific differences between allied forms Gould had few equals' (Anon. 1881). But he is best known today for his folios.

Grant, C. H. B. [=Grant, Captain Claude Henry Baxter]

Grant, Captain Claude Henry Baxter (1878–1958; England)

Ornithologist, collector, and taxidermist. Interested in African ornithology. Served in WWI. Member, B.O.U. Committee, 1933–1935; Editor, *Ibis*, 1941–1947; Editor, *B.O.C. Bulletin* (1935–1940, 1947–1952); Vice-chairman, B.O.C. (1940–1943); Member, B.O.U. List Committee (1935–1952); Honorary Secretary, B.O.U. (1937–1952). Awarded the Silver Medal of the British Ornithologists' Union in 1912. Lived to tell about being juggled between the tusks of an African bull elephant, and tossed over with its trunk.

Gray, G. R. [=Gray, George Robert]

Gray, George Robert (1808–1872; England)
Zoologist and author. Head of the ornithological section of the British Museum in London for 41 years. Younger brother of John Edward Gray. Started his career at the British Museum as Assistant Keeper of the Zoology Branch in 1831. Began by cataloguing insects, published an Entomology of Australia (1833) and contributed the entomological section to an English edition of Georges Cuvier's Animal Kingdom. George Gray's most important publication was his Genera of Birds (1844−49), which included 46,000 references and 360 pll. (185 col.).

Bibliography

Gray, I. L., 1987. Recent ornithological publications. *The sparrowhawk*. *Ibis* 129 (2): 423–424.

Gray, John Edward (1800–1875; England)
Zoologist and author. Elder brother of George Robert Gray. He was Keeper of Zoology at the British Museum in London (1840–1874). Published several catalogues of the museum collections that included comprehensive discussions of animal groups as well as descriptions of new species. Improved the zoological collections to make them amongst the best in the world. In London, Gray studied medicine. Assisted his father in writing *The Natural Arrangement of British Plants* (1821). After being blackballed by the Linnean Society he turned his interest from botany to zoology. Joined the Zoological Department of the British Museum in 1824 to help John George Children catalogue the reptile collection. In 1840 took over from Children as Keeper of Zoology. Was also interested in postage stamps; on 1st May 1840, the day the Penny Black first went on sale, he purchased several with the intent to save them and thus became the world's first stamp collector. The Indian Pond Heron *Ardeola grayii* is named in his honour.

Greenway Jr., James C. (1903–1989; USA)
Worked as a reporter for the Brooklyn Eagle newspaper in his early years. Joined Jean Delacour in 1929 on a project in Madagascar and later in Indo-China. Participated in several such expeditions during his life. Joined the Museum of Comparative Zoology at Harvard as Assistant Curator of birds in 1932, becoming Curator in 1952. He was commissioned into the Navy in 1941 and became Lt. Commander. In 1960 joined the American Museum of Natural History (1960–1989) and was a Trustee in 1960–1961 and 1970–1971. Elected Fellow of the American Ornithologists' Union (1948). Co-edited with Ernst Mayr Volumes 9 and 15 of *Peters' Check-list*. Member of the Frank M. Chapman Memorial Fund Committee.

Grimmett, R. [=Grimmett, Richard]

Grimmett, Richard (1960–; England)
BA, Social Sciences, East Anglia (1983). Ornithologist, artist, and author. Asia Head, BirdLife International (1993–). Area of special interest, South Asia. Responsible for overseeing BirdLife International's conservation programs for species, flyways, forests, marine and invasive species, as well as BirdLife's work with the corporate sector. He has been with BirdLife (and its predecessor, the International Council for Bird Preservation) since 1985. OBC: Founder-member and Chairman of launch committee (1984–1985); Chairman (1985–1989); Council (1989–1993). He is a keen birder as well as the author of several field guides to the birds of South Asia. He also oversees the implementation and monitoring of progress with BirdLife's 2022 strategy and the annual work planning of the organization.

Hancock, J. [=Hancock, James Allitt]

Hancock, James [=Hancock, James Allitt]

Hancock, James Allitt (1921–2004; England)
Businessman, soldier, photographer, and ornithologist. During WWII joined the Indian Army as an officer, rising to Colonel and gaining a working knowledge of Urdu. Served on the council of the Royal Society for the Protection of Birds, was treasurer of the UK section of the ICBP (=BirdLife International), and President of the BTO (1984–1989). Honoured with an OBE (1991) and, the Jubilee Medal of the BTO for services to ornithology (1992), and an honorary doctorate from the University of Southampton. World authority on Ardeidae.

Hargitt, E. [=Hargitt, Edward]

Hargitt, Edward (1835–1895; Scotland)
Ornithologist, and landscape and bird artist. Studied art at the Royal Scottish Academy. His extensive collection of skins and eggs is now housed in the British Museum. Expert on woodpeckers (Picidae). During later years, prepared 1,300 drawings of woodpeckers for a proposed monograph, but the whereabouts of these are currently unknown.

Harington, H. H. [=Harington, Lieutenant-Colonel Herbert Hastings]

Harington, Lieutenant-Colonel Herbert Hastings (1968–1916; England)

Officer and naturalist, born in Lucknow (India). Educated in Malvern. Served with the 92nd Punjabis in Burma and in India for over 20 years and for five years was attached to the Burmese Police. While in Burma he took up ornithology seriously. Was killed in action in Mesopotamia whilst leading the 62nd Punjabis as Lt.-Col. Col. Harington was the discoverer of a number of new forms, and several birds have been named after him by various ornithologists in recognition of the good work he did.

Harting, J. E. [=Harting, James Edmund]

Harting, James Edmund (1841–1928; England)
Solicitor and naturalist. Educated at Downside College and London University. Left his legal practice to become an ornithologist and conservationist. Natural history editor of *Field* from 1871 (contributing an astounding 2,326 articles to that paper, including 124 obituary notices) and the *Zoologist* 1877–1896. Harting was also for many years, Assistant Secretary and Librarian to the Linnean Society of London. Resigned from the BOU as he was not able to

accept the new methods of classification and nomenclature. He was an accomplished falconer.

Hellmayr, Charles E. [=Hellmayr, Carl (Charles) Eduard (Edward)]

Hellmayr, Carl (Charles) Eduard (Edward) (1878–1944; Austria)

Ornithologist. Assistant to Hartert at Tring (1906). He was Curator of the Bird Department at Munich Museum 1908–1922 and Associate-Curator of Zoology at the Field Museum in Chicago 1922–1931. Later settled in Vienna where he had property interests. Had a narrow escape from Nazi Germany to Switzerland, after sacrificing most of his property. His speciality was Neotropical birds. He was also fond of mountaineering and collected terrestrial orchids.

Hingston, R. W. G. [=Hingston, Richard William George]

Hingston, Richard William George (1887–1966; Ireland)
Hingston, Richard William George (1887–1966): Doctor and naturalist on the 1924 expedition (to Mount Everest), presided over the collection of an astonishing 10,000 animal (mostly insect) and 500 plant specimens. Irish by birth, the quiet and unassuming Hingston entered the Indian Medical Service in 1910. During WWI he served in France, East Africa and Mesopotamia, winning the Military Cross. Retired in 1927, but subsequently made expeditions to Greenland Guyana and Africa and continued to write extensively.

Hodgson, B. H. [=Hodgson, Brian Houghton]

Hodgson, Brian Houghton (1801–1894; England)
British naturalist and ethnologist. Graduated from the East India Company College as a Gold Medalist (1817). Proficient in languages. Joined the Company at the age of 17 and reached India in 1818. Worked in various positions before being posted as British Resident at the court of Nepal (1833–1844). He studied the Nepalese people, learnt their languages, and published several papers on their ethnography. Retired and settled in Darjeeling (1845–1858), before returning to England in (1858) for good. Hodgson was extremely interested in Buddhism, studied its ancient texts, and became an expert in its philosophy. He held strong views against Britain's policy of making English the language of education, favouring, instead that European knowledge be imparted in local languages. Hodgson studied all aspects of the natural history of his region, primarily Nepal, Sikkim, and Bengal. He amassed a large collection of mammal and bird skins and presented 10,499 specimens to the British Museum in 1843 and 1858. Hodgson had an enormous number of drawings and coloured sketches made by local artists, personally training them in the art of

scientific accuracy. Most of these were later transferred to the Zoological Society of London, and the British Museum. A planned work on the fauna and flora of Nepal never materialised. He discovered several species of mammals and birds and described many of them for the first time for science, while others that he collected, were described thus by contemporaries. Honoured eponymously in multiple genera and species. Awards: French Government: *Chevalier of the Légion d'Honneur* (1838); Royal Society: Fellow (1877); Oxford University: Honorary Doctorate (1889); Member: Royal Asiatic Society, and Linnean Society.

Hoffmann, Thilo W. [=Hoffmann, Thilo Walter]

Hoffmann, Thilo Walter (1922–2014; Switzerland) MA, Agriculture Science. Joined Baur & Co., Ltd, as advisor in Ceylon [=Sri Lanka] (1946); Director (1955); Managing Director (1968–1982); Chairman (1982–2000); Hon. Chairman (2000). Wildlife and Nature Protection Society (WNPS): Treasurer (1961); Hon. General Secretary (1962–1967); President (1968–1979). Instrumental in saving Sinharaja from exploitation for logging. Also played a leading role in the protection of Wilpattu West Sanctuary and Wilpattu National Park, besides helping establish several others. Advisor to the Fauna and Flora Advisory Committee (1965–1993). Awards: UNEP: Global 500 Laureate. Sri Lanka Government: Presidential Award (2004); Sri Lanka Ratne (2005), the highest civilian award accorded a foreigner. Long-standing force behind the Ceylon Bird Club. Honoured with the eponym for the Serendib Scops Owl, *Otus thilohoffmanni*.

Hooker, J. D. [=Hooker, Sir Joseph Dalton]

Hooker, Sir Joseph Dalton (1817–1911; England)
British botanist and explorer. MD, University of Glasgow (1829). Commissioned as Assistant Surgeon aboard the HMS *Erebus*, and joined Captain Ross's Antarctic Expedition. First European to collect plants in the Himalaya (1847–1851), collecting in India and Nepal (where he stayed with Brian Hodgson). Hooker travelled widely across world, collecting plants and botanising wherever he went. He was a close friend and supporter of Charles Darwin and championed the latter's theories of evolution. Assistant Director (1855–1864), Director (1865–1885) of Royal Botanical Gardens, Kew. Awards: Royal Society: Fellow (1847), President (1873–1877), and was awarded its Royal Medal (1854), Copley Medal (1887), and Darwin Medal (1892); Companion of the Order of Bath (1869); Founder's Medal, Royal Geographical Society (1883); Knight Commander (1877), and Knight Grand Commander (1897) of the Order of the Star of India; Order of Merit (1907). Prolific author. Published the classic *Flora of British India* (1872–1897). Honoured in several eponyms, and toponyms.

Hora, S. L. [=Hora, Sunder Lal]

Hora, Sunder Lal (1896–1955; India)
Ichthyologist. Second director of Zoological Survey of India. Propounded the Satpura Hypothesis, a zoo-geographical hypothesis that suggests that the central Indian Satpura Range of hills acted as a bridge for the gradual migrations of Malayan fauna into the peninsula and the Western Ghats of India.

Horsfield, Thomas (1775–1859; USA)
Physician and naturalist. Born in Philadelphia. Studied medicine, took the degree of Doctor of Medicine in 1796. In 1799 he went to Sumatra, where he remained for twenty years under both Dutch and British rule. The East India Company took control of the island from the Dutch in 1811, and Horsfield began to collect plants and animals on behalf of his friend Sir Thomas Stamford Raffles. In 1818 he was forced to leave the island due to ill health and became keeper and later curator of the East India Company's Museum in Leadenhall Street, London. Was appointed assistant secretary of the Zoological Society of London at its formation in 1826. In 1833, founded what became the Royal Entomological Society of London.

Hume, A. O. [=Hume, Allan Octavian]

Hume, Allan [=Hume, Allan Octavian]

Hume, Allan Octavian (1829–1912; Scotland)

Founder of the Indian National Congress (1889). British civil servant and political reformer, in 1849 sailed to India and joined the Bengal Civil Service at Etawah in Uttar Pradesh. Soon rose to become District Officer, introducing free primary education and creating a local vernacular newspaper, *Lokmitra* (The People's Friend). In 1860 was made Companion of the Bath for his services during the Indian Uprising. In 1867 became Commissioner of Customs for the North West Province, and in 1870 was attached to the central government as Director-General of Agriculture. In 1879 returned to provincial government at Allahabad. During his career in Etawah, built a personal collection of bird specimens; however it was destroyed during the 1857 Uprising. He started afresh with a systematic plan to survey and document the birds of the Indian Subcontinent and in the process accumulated the largest collection of Asiatic birds in the world, which he housed in a museum and library at his home, Rothney Castle on Jakko Hill [=Jakoo Hill], Simla. He used this vast bird collection to produce a massive publication on all the birds of India. Unfortunately this work was lost in 1885 when all Hume's manuscripts were sold by his servants as waste paper. Disheartened by this loss as well as by the damage to his personal museum and specimens as a result of a landslip caused by heavy rains in Simla, Hume wrote to the British Museum expressing a wish to donate his collection on certain conditions. One of the conditions was that the collection was to be examined by Dr R. Bowdler Sharpe and personally packed by him, and that Dr Sharpe's rank and salary be raised in compensation for this additional burden on him. The British Museum was unable to accede to his conditions. It was only after the destruction of nearly 20,000 specimens that alarm bells were rung by Sharpe and the Museum authorities let him visit India to supervise the transfer of the specimens to England. The Hume Collection as it went to the British Museum in 1874 consisted of 62,000 bird-skins and 19,000 eggs, besides books and other articles. The Collection contained 258 types. Hume made several expeditions solely to study ornithology and in March 1873 made one to the Andaman, Nicobar and other islands in the Bay of Bengal along with geologists Dr Ferdinand Stoliczka and Dr Dougall of the Geological Survey of India and James Wood-Mason of the Indian Museum in Calcutta. Hume employed William R. Davidson as a curator of his personal bird collection and also sent him out on collection trips to various parts of India, when he was occupied with official responsibilities. He wrote extensively on his own observations as well as critical reviews of all the ornithological works of the time, earning himself the epithet 'Pope of Indian ornithology'. In the dusk of his life Hume turned to Botany, and made a very large collection of British plants, which he left to the South London Botanical Institute, founded and endowed by himself.

Hunter, William Wilson (1840–1900; Scotland)

Statistician, historian, diplomat, and journalist. Entered the Indian Civil Service in 1862 and opted for service in Bengal Presidency. Reached Bengal in November 1862 and was appointed assistant magistrate and collector of Birbhum after he had passed the qualifying language examination in December 1863. From 1865 to 1868 served in various capacities, such as superintendent of labour transport at Kushtia, inspector of schools and superintendent of stamps and stationery. Hunter's service was transferred to the Government of India in July 1869, and he was appointed compiler of the Bengal Gazetteer. Subsequently in January 1871, became the compiler of the Gazetteer of India. From February 1871, officiated as under-secretary to the Government of India in the home department. In the meantime, the post of the Director-General of Statistics to the Government of India was created for him, which he assumed in September 1871. From 1875 to 1881 he spent more than half of every year in England on compiling the Statistical account of Bengal and the *Imperial Gazetteer of India*. On Hunter's return to India in December 1881, he was taken as an additional member of the Viceroy's Council. From February 1882 to November 1883 was the President of the Education Committee which submitted a report to the Government. At the same time also became Vice-chancellor of Calcutta University. In February 1886, was appointed member of the Finance Committee, the last appointment of his service career. Resigned from the service in September 1887. In recognition of his meritorious services was made Companion of the Indian Empire, Commander of the Star of India, and finally Knight Commander of the Star of India.

Hussain, S. A. [=Hussain, Syed Abdulla]

Hussain, Syed Abdulla (1944–2009; India)

Joined the Bombay Natural History Society in 1969 as a research assistant and rose to become its principal scientist (1980–1990). Did field work on Narcondam Hornbill, Himalayan Honeyguide, and Black-necked Crane. He held responsible and eminent positions in various national and international ornithology and conservation organisations during his lifetime. Some of these were: Development Director of the Asian Wetland Bureau (Malaysia), Vice-Chairman of the Asia Division of BirdLife International (1992–2000), Member of the Executive Council, BirdLife International (UK) (1992–2000), Member of the International Ornithological Congress (1998), President of the Biodiversity Initiative Trust (Mangalore) and, Member of the Karnataka State Wildlife Board (2006–2009), and

Member, National Committee for Wetlands Mangroves and Coral Reefs (1992–1997). He was the author of many reports and papers. Commemorated in Hussain's Giant Night Frog *Nyctibatrachus hussaini*.

Hutson, H. P. W. [=Hutson, Henry Porter Wolseley]

Hutson, Henry Porter Wolseley (1893–1991; England)
British military engineer and ornithologist. Major-General Henry P. W. Hutson's interest in birds began in Sudan where he served after WWI, in which he won the Military Cross and three Mentions in Despatches. Became an ornithologist of international repute, writing a book on the birds of Nigeria after a posting there, and contributing to ornithological journals. Was appointed Deputy Engineer-in-Chief in India as a Major-General in 1944. Returned to London before retirement in 1947. Served as Chief Engineer of the Forestry Commission for 11 years, after which he lived in Southern Rhodesia (now Zimbabwe) with his farmer son.

Huxley, J. S. [=Huxley, Sir Julian Sorell]

Huxley, Julian [=Huxley, Sir Julian Sorell]

Huxley, Julian S. [=Huxley, Sir Julian Sorell]

Huxley, Sir Julian Sorell (1887–1975; England)
Evolutionary biologist, proponent of natural selection and the modern synthesis, filmmaker, and prolific author. Son of Leonard Huxley, and brother of Aldous Huxley. Secretary of the Zoological Society of London (1935–1942). First Director-General of UNESCO (1946–1948). Founder member of World Wildlife Fund. Knighted in 1958. Awards: Kalinga Prize (1953), Darwin Medal (1956), Darwin–Wallace Medal (1958), and Lasker Award (1959). Served in the British Army Intelligence Corps in WWI. Vast number of biographical references on the Internet.

Editor=Inglis, C. M. [=Inglis, Charles McFarlane]

Inglis, Charles McFarlane (1870–1954; Scotland)
Planter, ornithologist, and artist. Moved to India when he was 18. Assistant at a tea plantation in Hailakandi, Cachar district (Assam). In 1898, moved to join his brothers in Bihar, who were indigo planters. There he bought the Baghownie Estate in Tirhut district in 1900, where he lived for 25 years. Here he made complete collections of birds, butterflies, moths, and dragonflies and in outdoor aviaries bred Burmese Peafowl and Swamp Partridges. Besides natural history his other hobbies were gardening and painting; he often took his painting materials with him on treks to paint any interesting bird collected. In 1923 took over as Curator of the Darjeeling Natural History Museum, reorganised it completely, and started and edited the Journal of Darjeeling (later Bengal) Natural History Society, for 25 years. Co-authored a book with Bainbrigge Fletcher. After retirement settled in a cottage in Coonoor in the Nilgiri Hills, where he lived till his death. Inglis not only made large collections of birds and eggs, but also formed a large collection of paintings, all done by him, and most of them life-size.

Jardine, W. [=Jardine, William]

Jardine, Sir William (1800–1874; Scotland)
Ornithologist. The eldest son of Sir Alexander Jardine, 6th Baronet, of Applegarth, Dumfriesshire. Educated at home and in York, then studied at Edinburgh University taking literary and medical classes as well as natural history and geology. In 1820, succeeded his father as 7th Baronet. Was particularly devoted to the study of ornithology, and in addition to wide ornithological knowledge was also knowledgeable about many orders of vertebrates. His publications include *The natural history of humming-birds* (1833), *The natural history of fishes of the perch family* (1835), *The natural history of the Nectariniadae, or sun-birds* (1843), *Memoirs of Hugh Edwin Strickland M.A.* (1858), and *The natural history of Selborne: with observations on various parts of nature, and the naturalist's calendar* (1836). In 1836, was President of the Berwickshire Naturalists' Club, and for some years, Joint Editor of the *Edinburgh Philosophical Journal*. In 1860 was appointed one of the Royal Commissioners on Salmon Fisheries in England and Wales—published a folio, Salmonidae (1839–1841).

Jathar, Girish [=Jathar, Girish Avinash]

Jathar, Girish A. [=Jathar, Girish Avinash]

Jathar, Girish Avinash (1977–; India)
BSc, Zoology (1999); MSc, Environmental Biology (2001); PhD, Zoology (2006). BNHS in various capacities (2001–2008, 2015–2021); Centre for Environment Education, Ahmedabad (2008–2010); Watershed Organization Trust, Climate Science Team (2010–2015); Deputy Director (Research), Srushti Conservation Foundation (2021–). Awards: Ravi Sankaran Fellowship, Inlaks India Foundation (2010); Young Ornithologist State Award (2012). Governing Council Member, SACON; Member, Species Survival Commission, IUCN; Member, Bustard Specialist Group, IUCN; Senior Research Associate, Global Owl Project, USA. Editorial Board Member: *Indian BIRDS*, *JoTT*, and *JBNHS*.

Jayakar, S. D.

Jayakar, Suresh Dinakar (1937–1988; India)
Indian Naturalist, Population Geneticist, Statistician, and academic. MA, Mathematical statistics, University of Lucknow (1958). Worked with J. B. S. Haldane (1892–1964), and his second wife, Helen Spurway in the Indian Statistical Institute, Calcutta [=Kolkata]. Moved to Orissa with his mentors to work at the Genetics and Biometry Laboratory in Bhubaneshwar, which the state government had set up for Haldane. Became Director of the Laboratory after Haldane's death in 1964 (1964–1967). Moved to Pavia, Italy (1967), and joined Professor L. L. Cavalli-Sforza at the International Laboratory of Genetics and Biophysics. He became an Italian citizen in 1980. Editor *Journal of Genetics* ().

Jayson E. A. [=Jayson, Eluvathingal Antony]

Jayson, E. A. [=Jayson, Eluvathingal Antony]

Jayson, Eluvathingal Antony (1958–; India)
BSc, Zoology, Calicut University (1978); MSc, Zoology, Calicut University (1980); Computer programming, Annamalai University (1985); Post Graduate Diploma, Wildlife Management, Wildlife Institute of India (1988); Post Graduate Diploma, Wildlife Conservation & Management, Smithsonian Institution (1990); PhD, Calicut University (1996). Naturalist, ornithologist, and academic. Has worked at the Kerala Forest Research Institute in various capacities, from Scientist-E (1981) to Scientist-G (2013–2018), Head of Department (Wildlife) (2012–2013), Research Coordinator (2013–2017), and Programme Coordinator (2014–2018). Member of various state and national level committees, including, Management Effectiveness Evaluation Committee of the Protected Areas in India, southern region, Ministry of Environment, Government of India (2016–2023). Editor *Evergreen* (2009–2011).

Jeganathan, P. [=Jeganathan, Panchapakesan]

Jeganathan, Panchapakesan (1975–; India)
Ornithologist. BSc, Zoology, Periyar E.V.R. College, Tiruchirapalli (1993–1996); MSc, Wildlife Biology, A.V.C. College, Myladuthurai (1996–1998); PhD, Zoology, Mumbai University (2002–2007). Research Fellow, Bombay Natural History Society (2000–2008); Wildlife Scientist, Nature Conservation Foundation (2008–). Has written extensively on nature in Tamil. Special interests: Jerdon's Courser, rainforest research, outreach and citizen science, Tamil Birders Network, Himalayan Quail, accessing biodiversity data through museum records, and Black-bellied Tern.

Jerdon, T. C. [=Jerdon, Thomas Caverhill]

Jerdon, Thomas Caverhill (1811–1872; England) Physician, zoologist, and botanist. Born in Durham, studied at Edinburgh University. Became Assistant Surgeon in the British East India Company, stationed in India, and later Surgeon Major in the Madras Regiment. Started collecting birds shortly after his arrival in India. Sent his collection to William Jardine for identification, but by the time they arrived at Jardine's house in Scotland they had become infested by moths. Jerdon trusted to his own identifications from then on, publishing 'A catalogue of the birds of the Indian peninsula' for the *Madras Journal of Literature and*

Science (1839−1840). This included 420 species, almost doubling the list produced earlier by Colonel William Henry Sykes. Jerdon had special facilities granted him by the Indian Government to enable him to bring out the 'Birds of India.' His knowledge of birds was very great; but he studied them, not by amassing their skins, as is the usual, and perhaps the best, way, but by committing, as it were, their peculiarities to memory, with the aid of copious notes and sketches. He was elected an Honorary Member of the British Ornithologists' Union in 1864, but requested he be placed on the list of Ordinary Members. He died, in England, of an illness purportedly contracted during his travels in Assam.

Jones, A. E. [=Jones, Alexander Edward]

Jones, Alexander Edward (1878–1947; England) Naturalist and ornithologist. Joined the Bombay Natural History Society in 1910. Was an ardent and discriminating collector of birds and a very keen and knowledgeable field ornithologist whose notes and records have added substantially to our knowledge of Indian birds. In 1944 Jones generously gifted to the Society his entire collection of some 3,000 bird skins from many parts of the Indian Subcontinent, made over 30 years of residence here. Though a tailor and cutter by profession, and owner of a flourishing tailoring establishment at Simla, he missed no opportunity of indulging in his favourite hobby. Was also deeply interested in plants and insects, especially butterflies.
